

Abstract of the Disclosure

09/440,243

5 Methods and apparatuses for modifying print colors are described. A subset of printable information units, such as words, text, figures and drawings, which can be located within a document or file on a computer system, are displayed in a first color designation. This first color designation is then changed to a second color designation for printing. The printable information units are then printed.

"Express Mail" mailing label number: EL505994165US
Date of Deposit: NOVEMBER 15 1999
